Performing in "forgotten spaces"

The Prince Theatre in Pahokee will be the site of the first "Forgotten Spaces" project by the Demetrius Klein Dance Company.

The entire Glades community is invited to attend and enjoy this performance.

A press conference concerning the directory will be held on Tuesday, Sept. 20, at West Technical Education Center, Belle Glade. For more information, contact Autrie Moore-Williams or Nikki Bair at 992-9500.

Planning for the Holiday Store

It's that time again; time to think of children's bright eyes and smiling faces when they receive Santa's gifts and have a holiday dinner to fill their tummies.

For the third year the HRS/PBCPHU Volunteer Auxiliary is inviting area agencies, civic and religious organizations, and anyone interested in helping to plan, donate, (time, money or goods), and work the Holiday Store to a planning meeting.

The planning meeting will be held at the PBC Public Health Unit in Belle Glade on Thursday, Sept. 15, at 2:30 p.m. in the second floor conference room.

Last year, the store served 400 families. This year, organizers are anticipating to serve 500 families. For further information, call Marylou Powers at 996-1608.

Glades-area educator dies at age 81

Kathryn E. Cunningham

Tammy Jackson
Staff Reporter

Former Canal Point Elementary principal, Kathryn Enecks Cunningham, died Sept. 6, 1994 at the home of her son, David Winn Cunningham, in Port Huron, Mich. She became the principal of the Canal Point school in 1968 and retired in 1990.

During Ms. Cunningham's leadership of the school, Canal

Point was accredited with the Southern Association of Elementary Schools and received the Little Red School House Honorable Mention Award. The Palm Beach County School Board displayed their appreciation for Ms. Cunningham's efforts by renaming the school for Kathryn E. Cunningham/Canal Point Elementary School after her retirement.

Ms. Cunningham was born May 29, 1913 in Newington, Ga. Her family later moved to Rocky Ford, Ga. where she graduated from high school. She received her Bachelor's degree from South Georgia Teacher's College, Boone, N.C. She did graduate work at Florida State University, University of Florida and Florida Atlantic University. She taught in Georgia two years before moving to Florida.

While visiting her grandpar-

ents in Jensen Beach one summer, Ms. Cunningham accepted a teaching position at an elementary school in Indiantown. There she met her husband, David Winn Cunningham, and the couple were married Aug. 8, 1937.

Mr. and Ms. Cunningham built a home in Pahokee. Mr. Cunningham owned stores in both Canal Point and Pahokee. Ms. Cunningham taught school in Canal Point and Pahokee until 1946 when she took leave to devote time to her family.

In 1948 Ms. Cunningham returned to the teaching profession and continued until 1961. From 1961-68, Ms. Cunningham was a resource teacher for the West Area Schools.

The former educator devoted many hours of service to First

Chamblee family chosen "Farm Family of the Year" by Farm Bureau

By Brenda Bunting
Editor

A local farm family whose involvement in agriculture in the Glades goes back to 1926 was named the Western Palm Beach County "Farm Family of the Year" at the annual Farm Bureau banquet Sept. 8.

Accepting the honor were several generations of the

Chamblee family, whose father, grandfather, and great-grandfather, James Hubert "Hubie" Chamblee, came to Palm Beach County from Anderson, S.C. in 1926 to work for the Palm Beach County Road Department.

Only eight other local families have been given the honor of being named the Farm Fam-

ily of the Year, according to board member and presenter Ray Caruthers. He said these families have all had the distinction of being members of the community who live, work and are raising their families in the Glades.

Pioneer Hubie Chamblee helped the Glades recover from the 1928 Hurricane, and then

went back to Anderson, S.C. and brought his bride, Eunice McClure, back to the Glades in 1929. Mr. Chamblee was a patch farmer in those days, farming pieces of land which weren't under water. He raised vegetables and cattle and in the early 1950's he helped establish Pioneer Growers Cooperative.

Mr. Chamblee died in 1953 and his widow, Eunice, along with her brother, Cecil McClure, continued the farming operation. Mrs. Chamblee died in 1979.

The Chamblees had four children, two girls and two boys, who continue to live in Belle Glade and are involved in agriculture and other professions, contributing to the quality of life in the Glades.

James Chamblee farms in the Glades and his wife, Sandra, is involved in many community activities, including chairman of the board at Glades General Hospital.

They have two children, Jim and Lynn. Jim works at Costco and his wife, Collette is a nurse. They have two boys and they reside in Boynton Beach. Lynn (Chamblee) Anderson is a hairdresser in Belle Glade and her husband, Bill, works locally for Florida Power and Light Company. They have two children, Clay and Ginnie. Patsey (Chamblee) Stevens and her husband, Freddie also live in Belle Glade. Mr. Stevens is a teacher at Palm Beach Com-

rate and the city's \$16 million budget will be tonight at 7:30 p.m. at city hall.

At the request of the city commissioners, the budget proposed by City Manager Lomax Harrelle includes a 4 percent salary increase for most city employees.

Police officers will not see the salary increase though, because they are negotiating raises through the police officer's union, the Fraternal Order of Police.

No tax hike planned for homeowners in Belle Glade

By Brenda Bunting
Editor

Homeowners in Belle Glade won't see an increase in their local property taxes this fall.

Belle Glade City Commissioners voted to raise the tax rate from \$9.41 to \$9.46 per \$1,000 of taxable value, but because the value of taxable property in the city has decreased by 0.6 percent, taxpayers' bills will stay about the same.

Final adoption of the millage

rate and the city's \$16 million budget will be tonight at 7:30 p.m. at city hall.

At the request of the city commissioners, the budget proposed by City Manager Lomax Harrelle includes a 4 percent salary increase for most city employees.

Police officers will not see the salary increase though, because they are negotiating raises through the police officer's union, the Fraternal Order of Police.

Community College and Glades Day School and Mrs. Stevens is a former teacher at Belle Glade Elementary and Christian Day School.

They have two children, Mike and Susie. Mike, a CPA, and his wife, Lisa, live in Belle Glade and have four children. Susie, a nurse at Glades General, and her husband, Jeff, who is also involved in agriculture in the Glades, have two children.

John David Chamblee, a local farmer, and his wife, Joyce, a school teacher, also have two children, David and Kimberly. David is involved in education in Dallas, Texas, and Kimberly Soles is a local paramedic who is attending nursing school. She and her husband, Bobby, have one child, Joshua.

James and Janet (Chamblee) Jacks also reside in Belle Glade. He works for Pioneer Growers and Janet is a teacher. They have two children, a daughter Johanna Jacks, a Special Education Teacher at Canal Point Elementary, and Jay Jacks, a student at Delta State University.

Past Farm Families honored include the Joe Orsenigo family, the Bob Simpson family, the Clarence Pate family, the Fritz Stein family, the Ruth Wedgworth family, the Clark Hull Wilkinson family, the Schlechter family, and the Lewis Friend family.

The 1994 Farm Family of the Year...The descendants of James "Hubie" Chamblee were honored as "Farm Family of the Year" by the Western Palm Beach County Farm Bureau last Thursday evening. Standing left to right, back row, are presenter Ray Caruthers, James Chamblee, James and Janet Jacks, Joyce and John David Chamblee. Middle row, left to right are Sandra Chamblee and her daughter, Lynn Anderson. In front are Mrs. Anderson's children, Clay and Ginnie Anderson.

Election

"I'm calling in reference to the election Thursday. I would like to know, what exactly is the purpose of an election? Isn't everybody trying to get the voters to try and come out and vote? Yet when you come out and vote, no matter what party you are, you should be able to pick whom ever you want to represent you and you feel will do the better job, whether that person is a Republican, Democrat or non-partisan."

I just came from the election tonight and I listed myself as a non-partisan voter because I really don't believe in that Democrat/Republican stuff. I feel like I'm going to vote for the better person, who I feel will do the job right.

But, low and behold, as a non-partisan voter, I can't vote for a governor. Why is that?

Can someone help me clarify this situation? What is the purpose? I don't think they should separate the ballots and have different parties. I think it should be one ballot.

If they're trying to get the people of the community to come out and vote, at least do it right."

Editor's note: I'm sure you're not the only one who becomes disturbed when they go to the polls and find their choice very limited in the primary election. In the general election in November you will have a chance to vote across party lines.

We're here to help?

"Isn't that the motto on the sides of all the patrol cars? But you can't truly help if your hands are tied."

I can not understand how City Manager Lomax Harrelle, Chief of Police Michael Miller, and the current commissioners can sleep at night with the understaffed, overworked and under paid officers working

the streets of Belle Glade.

OK, so you don't want a union. Then offer a reasonable pay scale, disciplinary board and other areas of concern to our police officers.

Our concerns as citizens of Belle Glade and as your employer as city officials is that you put the safety of our community first!

So as a citizen of this community, I sincerely hope and pray that this serious matter of our safety be resolved before another penny is put in the city officials' pockets.

By the way, I see the new 1994-95 budget includes raises for all city employees, except police.

This makes me feel so secure.

Chief of Police and Director of Public Safety Michael Miller responds:

We are here to help

I have been helping for 23 years. In fact, the command staff of the Belle Glade Police Department has a combined total of 229 years of law enforcement experience serving the citizens of Belle Glade.

Let's examine the facts

Fact 1: The men and women of the Belle Glade Police Department are dedicated professionals.

Fact 2: A number of officers decided to engage in collective bargaining through a profession labor union - The Fraternal Order of Police.

Fact 3: While I respect the right of these officers to be represented by a Labor Union, I do not feel it is in their best interest of the citizens of Belle Glade.

Fact 4: Historically the city commission, city manager and I have always struggled to provide the best possible salary and benefit package for all employees.

Fact 5: I think everyone understands how difficult economic conditions have been for

New twist on telemarketing scams re-target the same victims

By Debbie Woods
Better Business Bureau of South Florida, Inc.

"Once bitten, twice shy" apparently does not apply to the repeat victims of telemarketing scams. The Better Business Bureau of South Florida is reporting that many victims of phone fraud are not learning their lesson and are falling prey to the many new ploys con

artists use to scam unsuspecting consumers again and again.

Fraudulent telemarketers are using a "sucker list," complaints of names, addresses, phone numbers and other personal information of individuals who have responded to bogus telephone solicitations in the past.

"These lists are created,

bought and sold by certain unscrupulous promoters who know that consumers who have been tricked once are vulnerable to additional scams," said Jim Stanley, president of the BBB of South Florida, Inc.

The scammers use a variety of approaches to re-target the consumers on the sucker lists. One growing

Letters to the editor

Red Cross expresses thanks

Dear editor:

Recently, the West County Service Center of the American Red Cross was called to provide services for the Belle Glade residents who had been displaced and the workers who put in countless hours to help with clean-up due to the mercury spill.

The support that was given to the Red Cross by the local merchants and volunteers made the task of supplying the victims and workers three meals a day (which totalled 6,251 meals) and getting clothes to the victims much easier and they deserve our sincerest thanks!

The merchants listed below opened their doors early and stayed late to accommodate our every need. Whenever possible we should give them our support and patronage.

They include: Dino's Restaurant, Fat Boy's Restaurant, Glades General Hospital, the City of Belle Glade, Palm Beach County Sheriff's Department, Glades Sub-station, Subway,

Glades Central High School, McDonalds, Burger King, Kentucky Fried Chicken, Sugar Cane Growers Cooperative, Kountry Kitchen, Popeyes Chicken, The Latin Grocery, Winn-Dixie, U-Save, the Elks Lodge, Richard and Wanda Chalk, Dixie Fried Chicken, McCrory's and Big Lake Snacks.

Sincerely,
Heather Teeters
Director, West County Service Center

In times of tragedy both the best and worst is evoked in the human spirit. I was saddened

to hear that some displaced children were taunted and derided as "Mercury kids" by their peers. It is unfortunate that some folks feel that they can only elevate their own mood by stepping on others. How wonderful it would be if kindness and compassion were not merely widespread, but ubiquitous as well. It has been said that the greatest form of charity is that which is given anonymously, and does not seek recognition. While some "high profile" help was given by individuals and agencies, I believe it is especially important to acknowledge gratitude to the nameless and faceless folks who helped their community, in less visible, but vitally kind and giving ways. I believe that the Glades can be especially proud of its anonymous and low-profile helpers. There are many who seek no glory or thanks for what they do, but

help only because that is part of their character. At the time of the writing of this article, all but two families have been returned to safely decontaminated homes. The high profile involvement has reseeded as the community seeks to respond to new challenges and grow. Let us not forget, that for some, disruption in living has still not ended. Moreover, let us remember that there will always be many who will be facing new challenges, frustrations, and perils.

It is known that people tend to rally and support each other in times of emergency. It is a greater testimony to human spirit and kindness when people go out of their way to help each other, without an immediate request or crisis. It is in this way that the Glades folks can be extraordinary. Let us all thank and acknowledge the daily kindness that transpires in the Glades: Let's give thanks to those who help selflessly and without being asked.

Bound by mercury

Several weeks ago, toxic mercury was unwittingly spread throughout the Glades by innocent youth. Arising out of this potentially tragic incident, came a renewed sense of community and support. At least 65 people were made temporarily homeless while their residences were being cleaned and evaluated for continuing contamination. Red Cross volunteers, HRS, federal, hospital, and mental health staff, as well as school board and police department-employees devoted time and effort to help those in need. Local businesses donated food and supplies. It was gratifying to see, that when the chips were down, the Glades came to help their own. It was even more gratifying to see that assistance came from outside the Glades as well, as volunteers from all over South Florida, came to lend a hand and a heart.

scam is called the "Recovery Room." Consumers who have lost money to a telemarketer are contacted by an individual claiming to represent a consumer organization or a government agency that works, for a fee, to recover lost money, a product or a prize.

Initially, these fraudulent companies simply used official-sounding names such as "The Federal Bureau of Recovery."

However, the companies may now imply that they represent actual government agencies like the Federal Bureau of Investigation or the U.S. Department of Justice.

"Of course, this caller is likely to be just as bogus as the one that pretended the original rip-off," Mr. Stanley said. "In fact, the person may even work for the same firm."

Another recovery scam that has been reported to local BBBs around the country involves con artists impersonating prominent local attorneys from prestigious, well-known law firms.

Previous fraud victims are told that the "attorney" has recovered their lost money, but in order to receive it, consumers must wire hundreds of dollars to cover supposed "legal fees and court costs."

Many of the victims are elderly and remain hopeful to the idea that someone can help them," Mr. Stanley said.

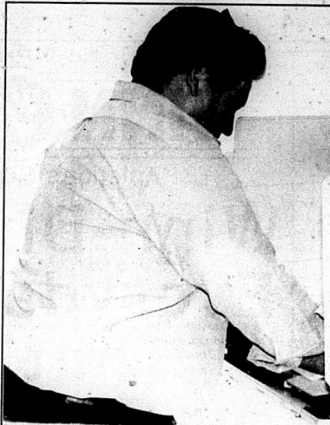

"Their losses often run into the thousands of dollars, and they are willing to listen to anyone who claims they can return the money."

Recovery scams are usually successful and often perceived as being legitimate

because the caller asks for money to be transferred by wire. The caller establishes a "test question" and "answer" with the sender. This enables the con artist to pick up the money using these secret words with no need for photo identification, making it impossible for authorities to trace the perpetrator after the consumer reports being bilked.

Consumers who receive a call from a supposed government agency, consumer organization or attorney should call that office themselves -- not using a phone number provided by the caller -- to verify the offer.

"Fraudulent telemarketers are always coming up with new ways to separate consumers from their money," said Mr. Stanley. He advises consumers to thoroughly check out any suspicious offers with BBB.

Farm Credit/Ag Institute candidates forum planned

Governor Lawton Chiles has announced his intention to present his agricultural platform at the Farm Credit/Ag Institute Candidates Forum in Orlando on Sept. 28.

The five Farm Credit associations in Florida and the Ag Institute have joined forces to stage the forum at the Orlando Airport Marriott, beginning at noon on Wednesday, Sept. 28. The Marriott is located at 7499 Augustine Avenue.

The candidates for governor, United States senate, and Florida commissioner of agriculture have been invited to present their plans for Florida's second largest industry to an expected crowd of about 400 agri-business representatives.

Tickets can be obtained at

Farm Credit offices around the state at a cost of \$35 per ticket or individual tables seating eight can be reserved for \$280. Checks should be made payable to Farm Credit and sent to P.O. Box 5559, Lake Worth, Florida, 33466, attention Eva Webb. Seating will be limited to the first 400 to send in their checks.

Farm Credit has been a source of credit to the agri-business interests for over 75 years.

The Ag Institute consists of a cross-section of the state's agricultural leadership, including the elected leaders members and executive staff of many statewide agricultural organizations. It is a non-profit group.

Speak Out

In the past several years in the Glades and throughout our nation, many organizations and agencies have suffered major layoffs, cutbacks, and downsizing due to these tough economic times. Some organizations have even gone bankrupt. The City of Belle Glade and its employees have not been exempt from these hardships.

Fact 6: Much has been said about pay cuts. The fact is that 30 police officers got pay raises effective June 15, 1994. Admittedly, some of these raises were very small. Only five police officers received a reduction in pay which was a result of the collective bargaining process.

All police officers are now on salary just like the chief, inspector, and lieutenants of police, except that the police officers receive a bonus calculated on their base salary when they work more than 43 hours in a work week and an additional 2.3 percent bonus to enhance their salary under certain conditions.

Fact 7: No one's hands are tied at the Belle Glade Police Department. We are actively and aggressively engaged in crime prevention, detection and crime resolution.

Fact 8: The City of Belle Glade has negotiated in good faith with the labor

union that is paid to represent these officers. The City of Belle Glade has offered reasonable proposals concerning wages, terms and conditions of employment which were rejected by the union representative. When employees engage in the collective bargaining process there is no guarantee that they will receive more benefits or more wages, or better terms and conditions of employment. They can end up with more, the same or less in relation to wages, terms and conditions of employment. Everything must be bargained and it was.

Fact 9: I am a police officer and as such, public safety has always been my primary concern. Safety of the citizens of Belle Glade and the safety of my fellow police officers is paramount, however, I also have an obligation as the administrator of this department to be fiscally responsible. In reference to the 1994-1995 budget, police officers in the bargaining unit did not receive the 4 percent raise other city employees did because it would be unlawful for the city to unilaterally change the terms hours, wages, and conditions of employment without bargaining with the union first.

Fact 10: I am proud to live in the City of Belle Glade as everyone should be. We are

not perfect. We do have a crime problem but we are not alone. Read a newspaper or watch the evening news, violence, drugs, and crimes for profit and greed are sweeping across our nation. We may be annoyed when someone breaks into our car or steals our bicycle but thank goodness that serious crimes of violence are still few and far between in our community.

Finally, to everyone that may be concerned, I sleep very well. You should too. Don't allow yourselves to be frightened by union scare tactics. The exception to my sleeping well is when I am awakened to provide service to the citizens of Belle Glade. I accept that responsibility proudly!

Try living off what the unemployed are getting. I was reading the article in the paper where the policemen in Belle Glade asked the question "could anyone live on what they make?"

Well, what they need to do is call the 1,300 people who were let go at U.S. Sugar in South Bay and ask them if they could live on what they make.

Continued from page 4

It's sad that they say they're not getting enough money when all they do is ride around in cars in Belle Glade and they don't prevent crime. They say they do, but they don't. That's my Speak Out opinion about it.

Arrest blotter
"I see where you got the Pahoeks Police Department arrest blotter in the paper showing what they do. Why don't you put the Belle Glade Police Department's blotter in there and see what they're up to? Let's see if they're really doing their job."

If you don't like it...
"This is addressed to all the police officers in Belle Glade."

I read in the paper where you all are unhappy with your salary and all. Well, there's an old saying that if you don't like it, leave it.

If you can't live on what you're getting, you don't need to be here, cause there's other qualified people who would do this for the kind of money you guys get.

First of all, you need to try to help clean up the crime in Belle Glade and then worry about getting more money.

WHIPLASH

Whiplash injuries can result from a sudden backward and forward whipping movement of the neck, caused by an auto collision, a fall, a powerful slap on the back, or even a violent sneeze. The ligaments and muscles controlling the spinal segments are stretched or sprained, allowing the vertebrae to slip into abnormal positions. Nerves are then "pinched" or irritated, giving rise to headaches, nausea, dizziness and other pain.

Local nurse speaks at Heart Walk kick-off

The kick-off for company leaders and captains was held at the Sugar Cane Cooperative in Belle Glade Aug. 31. Kendra Perkins, chairperson, informed the volunteers about the details of this year's 6.2-mile walk around the Belle Glade Marina.

Michele Young, R.N., guest speaker for the evening, complimented the volunteers on their efforts to be involved in an activity which promotes heart health, as well as raise monies to meet the goals of education and research. Her topic for discussion included local facts on the epidemic of cardiovascular disease in the Glades area.

Ms. Young relayed her first-hand experience with young heart attack sufferers at Glades General Hospital where she has been employed for the past four years.

Besides her supervisory and direct patient care roles at the hospital, Ms. Young promotes aerobic exercising in her spare time by teaching aerobics at several locations in Belle Glade and the Greater West Palm Beach area.

There are 20 companies already committed to supporting

this year's Heart Walk at the Belle Glade Marina. Thirty captains recruited will assist in securing the 250 walkers the division hopes will walk. This year's goal of \$80,000 could be surpassed.

During the evening, several awards were made to persons who got early starts on securing company leaders, captains and first five walkers. Shirley Till at Glades General Hospital secured the first five company leaders. Hattie Bennett, Barnett Bank, recruited her five captains first, and Kathy Miller, Multi-Turn, signed the first five walkers.

The next meeting of the group will be at a picnic sponsored by Louise Harrell, AHA-Glades Division President and city manager of Belle Glade.

Anyone interested and encouraged to join the group as walkers, or recruiters of walkers, should contact Kendra Perkins at 924-7113, or Dee at AHA, 655-8155.

Registration pictures will be taken Saturday, Oct. 1, at 7 a.m. The walk will begin promptly at 8 a.m.

Glades Central High library has new hours

Dr. Effie Gear, Glades Central Community High School principal, recently announced that the school's library media center, popularly known as the Raider Information Center, will remain open Mondays through Thursdays until 4 p.m.

Due to the extended hours, students will have the opportunity to work on homework, research assignments and check out books. They will also have the opportunity to work with the computers in the Raider Information Center Computer Lab.

Dr. Grear and Myrtle Clayton, one of the Raider Information Center's media specialists, said the extended hours are offered in response to student and faculty requests. This new schedule will also assist the school in meeting one of the goals of the School Improvement Program which calls for increased opportu-

nity for students to access the media center and flexible after-school hours.

The after-school program has been made possible, in part, by hiring an additional media specialist. They welcome Mary Ann Blanchard to the staff of Glades Central Community High School. Ms. Blanchard has an interest in computers and technology and their impact on student access to information.

The Raider family welcomes the students and staff to visit the Raider Information Center during its new hours.

Reservation agency to assist football fans

Miami-bound football fans headed to South Florida to cheer the Miami Dolphins or University of Miami Hurricanes can save on travel expenses by making toll-free advance reservations through a Florida-based reservations specialist familiar with the Miami's hotel deals.

Central Reservations Service (CRS) lists a variety of hotels in easy proximity to Miami's Orange Bowl, where the UM Hurricanes play, and Joe Robbie Stadium, home of the Dolphins. A toll-free call to 1-800-950-0232 will put callers in touch with a reservationist who is equipped with current information about quality hotels offering discounts via CRS. Reservation confirmations are immediate, with copies mailed, or upon request, faxed. CRS reservationists will provide directions to the hotel — and to the Orange Bowl or Joe Robbie Stadium — and a confirmed reservation number. There is no pre-charge or minimum stay requirement, although a major credit card is required to guarantee the reservation. Rooms range in price from \$44 to \$94 per night.

Central Reservation Service can locate and recommend hotels with available rooms throughout the U.S. Besides the Miami area, CRS can book hard-to-get rooms in New York City, San Francisco and Orlando.

Special rules apply for archery deer hunters

Hunters during the archery deer hunting season are reminded by the Florida Game and Fresh Water Fish Commission that they must use a bow with a minimum draw weight of 35 pounds.

The archery hunting season on private land in South Florida began Sept. 10, and will conclude Oct. 9, according to Lt. Jim Huffstodt, a GFC public information officer. The south zone boundary runs along state Route 70 from Fort Pierce to Arcadia, and then along state Route 72 to the west coast.

Lt. Huffstodt reminds archers that they must use broadhead arrows with two sharpened steel blades with a minimum width of 7/8 inch. Firearms, crossbows, arrows with explosive components or drug injecting devices are illegal. All prohibited are bows with elec-

tronic computer sighting of light-projected (laser) features.

Sportsmen hunting during the archery season may take deer of either sex for spotted fawns. The daily bag limit is two deer with a possession limit of four deer. Archers may also take wild turkeys of either sex, wild hogs, with a shoulder height of 15 inches or more in areas where they are legal game, squirrels, quail, rabbit, raccoon, opossum, coyote, nutria, skunk and bear.

The GFC sponsors free bow hunting classes as part of its hunter education program. The six to eight-hour courses are offered at various times throughout the year. Course dates may be obtained by contacting the GFC's Everglades Regional Headquarters at (407) 640-6100.

Unlike many other instruments which can be tuned, no two cymbals sound exactly alike.

FACTS & FIGURES

(NAPS)—Does it feel like you're working harder, but not getting ahead? Well, you're probably right. Here are some figures from a report recently issued by the President's Commission on Worker-Management Relations.

• U.S. workers spend about 200 hours a year more on the job than their European counterparts. The length of vacation and holiday time for Americans has actually decreased over the past 20 years.

Just one of the girls...John Ramsey hammed it up for the ladies gathered to enjoy a fashion show sponsored by the Ladies of the Pahokee Elks last Saturday. It wasn't long before he found out what a lot of women already know...those high heels can hurt!

College scholarships available to almost anyone

Most parents and students think scholarships are only for the students with good grades, low-income families, or the athletically inclined. A small example of the numerous scholarships available to students include: Left-Handed Student Scholarships, Handicapped Student Scholarships, Members of A Church Scholarship,

tion of private sector financial aid went unused because the parents and students didn't know where to apply. A conservative college tuition for a full-time student runs from \$10,000-\$30,000; high-cost colleges run from \$40,000-\$100,000 - and this tuition is per year!

Many scholarships pay the entire tuition; otherwise, students combine applicable scholarships together to form one large

tuition payment. Most scholarships include junior colleges, career and vocational schools, four-year colleges, graduate schools, medical and law schools.

For information on obtaining these scholarship lists, send a self-addressed stamped #10 envelope to The U.S. Channel of Commerce for Higher Education, College Bound, P.O. Box 773, O'Fallon, Ill., 62269.

Theatre for schools program gets a boost

By Maria Wise Miller

The Dolly Hand Cultural Arts Center is well known for its presentations of outstanding professional theatre and family entertainment. One program that is very special is the Theatre for Schools, which brings quality children's cultural programs to school children throughout the Glades and Western Palm Beach County.

This season, Theatre for Schools kicks off with "Rum-

plestiltskin" presented by the Little Palm Theatre, a Boca Raton-based professional theatre company.

Other shows being presented this year include the classic children's story, "The Secret Garden" brought to us by Theatreworks of New York, one of the leading touring companies of children's theatre. Also, a new Palm Beach Opera production, "The Perfect Lady" as well as a special "Frontier Holiday" variety show.

One of the main goals of the Theatre for Schools program is to utilize the cultural arts to enhance education. It is really terrific when the students can read a story like "The Secret Garden" at school as part of reading or English class and then come and see the play performed, followed by a report or review. In this way the student's reading, comprehension, retention and writing skills are developed.

This is just one example of how the arts can be utilized in the classroom to help children develop their potential as well as help the teachers.

The response from the schools has been great. The program is completely sold out for the first 15 shows of the year. This is partly due to a grant received from the Palm Beach County School Board that underwrites a portion of the small ticket price for students from low-income families so everyone in each class can attend and participate in the learning experience.

The Theatre for Schools program provides a team approach to making education the best it can be and we should all be very proud.

If you are interested in being a volunteer usher for the Theatre for Schools program, contact the Dolly Hand Cultural Arts Center at 992-6160.

The Secret Garden will be performed for local school children at the Dolly Hand Cultural Arts Center this fall

SunFest to co-sponsor benefit for Hurston Museum

SunFest of Palm Beach County, Inc., the nonprofit organization that annually produces SunFest, will co-sponsor the Zora Neale Hurston Roof Garden Museum's grand opening benefit concert Sept. 16, at 8 p.m. at the Dolly Hand Cultural Arts Center, 1977 College Drive in Belle Glade. Additional co-sponsors include Southern Bell, PACE/Performing Arts for Community and Education, the Florida Department of State, Division of Cultural Affairs and the Florida Arts Council.

The concert, primarily intended for teens and young adults, will feature the 1993-94 PACE R&B Showcase Artist, "The Ladies of Mystique." These four South Florida natives are winners of the Magic City Mega Talent Search '92 and the coveted PACE/Pepsi R&B Showcase title for 1993-94. They have opened for Jennifer Holiday (Black Expo '93), Gerald Alston (Black College Reunion '94), Solomon Burke, The Del-

phonics; and, Harold Melvin and the Blue Notes. They also have performed for such celebrities as Robert Townsend and Charles "ROC" Dutton.

On the other hand, the museum's chief executive officer, said, "We are delighted that SunFest and Southern Bell have joined us in giving local artists an opportunity to showcase their talents, which is new to the Belle Glade area. We plan to do more of this in the future." Mrs. Konchellah considers the concert an extension of the Mucksteppers' Reunion, a cultural festival presented annually by the museum in January. The concert marks the start of SunFest's 1994-'95 community outreach program. SunFest is planning to undertake at least seven other projects over the next year.

Tickets are on sale now at the Zora Neale Hurston Roof Garden Museum for \$12. Mrs. Konchellah is encouraging corporations to buy

blocks of tickets for teen groups. Glades Central High School's Student Government also is selling tickets as a fundraiser. More information may be obtained by calling the Hurston Museum at 992-2161.

The Zora Neale Hurston Roof Garden Museum, Inc. is one of the first operational black history museums in Palm Beach County and the only such non-profit enterprise with a publishing focus. The museum's mission is to change the way America looks at the achievements and contributions of people of African descent by undertaking community and cultural education initiatives.

SunFest, Florida's premier music, art and water festival, is produced by the SunFest of Palm Beach County, Inc., a non-profit organization, and is a Tourist Development Council funded project. SunFest '95 will be held May 3-7 along Flagler Drive in West Palm Beach.

Planet earth a grand oasis toouterspace

By Mike Lyons

I remember the first time I saw a picture of our planet from outer space. It was in the late 1960's when the Apollo astronauts were flying around and landing on the moon. I remember it so well because I couldn't get over how beautiful the world looked, a blue and white ball floating in the blackness of space. Astronaut James Lovell of Apollo 8 called the earth a "grand oasis to the vastness of space."

That "oasis," the blue and white that can be seen from

space, is created by the atmosphere, the clouds and the oceans. That explains the colors that make up our planet as viewed from outer space but it doesn't explain why the sky is blue, the clouds are white and sunsets are red.

The ingredients that create our deep blue skies and fire-engine red sunsets include air molecules, water and even dust. But, it all begins with the sun.

Located over 92 million miles from earth, the sun is the source of all life. Its rays of light that travel to Earth in just over eight minutes arrive here as white light. Yet, this "white light" is more than it appears. If you peel away the white you'll find every color of the rainbow. The trick is finding a way to reveal those other colors.

The secret, the way to expose the rainbow of colors, is to bend the sunlight. Sunlight will remain white as long as it moves in a straight line. When that sunlight passes

through our atmosphere, it is reflected and refracted by air molecules, water vapor and dust particles. The light rays are bent and sent in different directions. This scattering process is called diffusion.

It is during this process that the colors of the rainbow are revealed. It just so happens that air molecules are just the right size to affect the blue light in the rainbow. The blue lightwaves spread all over the sky and down in all directions. No matter which way you look blue is everywhere.

Of course, there are different shades of blue that make up our sky. That shading is determined by the size of the air molecules. Large particles scatter more light so our sky looks hazier. When cold, dry air moves into the state in January or February, the sky turns a deep blue because there aren't many large particles of air.

So that explains why the sky is blue but why are clouds, white and sunsets red? Cloud droplets of moisture tend to be much bigger than air molecules so they scatter all the colors of the rainbow. When that happens the cloud turns white but when the cloud is thick enough only a little bit of light will get through so the clouds look dark from below.

Sunsets and sunrises are red or orange because when the sun is setting or rising the sunlight is traveling further through the atmosphere. The longer trip means more and more light at the blue end of the spectrum is scattered. That leaves red, yellow or orange light to create those gorgeous mornings or evenings.

We tend to take blue skies and beautiful sunrises for granted here in Florida. The next time those colors take our breath away perhaps we should remember the words of poet Jules Renard who said "on earth there is no heaven but there are pieces of it."

Mike Lyons is the weatherman for WPBF, Channel 25.

Pahokee drops Cardinal Newman in first district game of the season

By Robbie Everett

The Pahokee Blue Devils traveled to Cardinal Newman Friday night to hand the Crusaders their first district loss. The Blue Devils won the matchup 42-6.

Raised #1 Blue Devils signs were everywhere from the sidelines to the fans in the stands.

"One down and three to go," said sophomore tackle Ronald Boldin in reference to the three remaining district games scheduled for LaBelle, Bishop Verot, and Pope John Paul.

"We just want to get this one behind us and concentrate on next week's game against Leonard," said Pahokee Head Coach Ben Johnson. "One game at a time," he added.

Pahokee took an 8-0 lead early in the game. The Crusaders, assisted by a plague of penalties on the Devils, scored at the beginning of the second quarter.

Late in the second quarter, senior Corey Robinson charged the Crusaders quarterback, forcing an interception by Jeremy Hannah.

The Devils increased their lead 16-6.

Pahokee returned the second half with Lefain Williams literally running over Newman players to set up an Andre Taylor touchdown.

The Blue Devils defense continued to upset the opponent's plays. The Crusaders were held to 152 yards.

Pahokee defensive players Carl Boldin and Gilbert Singletary sacked the quarterback on a crucial third down, one of the many times he found himself being charged by a blue and white jersey.

"They just dominated us," said Cardinal Newman Head Coach Sam Budnyk.

Pahokee rushed for 406 yards and six touchdowns. Senior quarterback Darrell Smith completed two of six passes for 65 yards and rushed for more. Taylor, Williams and Linwood Johnson each rushed for two touchdowns. Senior quarterback Jebares Everett took the Devils 92 yards in four plays for the final series in the fourth quarter.

A quick pitch to Johnson set up a 46 yards run for the final touchdown for the Blue Devils.

The Blue Devils will travel to John I. Leonard this Friday. Game time is 7:30 p.m.

Blue Devil cheerleaders traveled to Cardinal Newman to cheer their team on to a victory.

Lady Blue Devils rally over Lake Worth Trojans

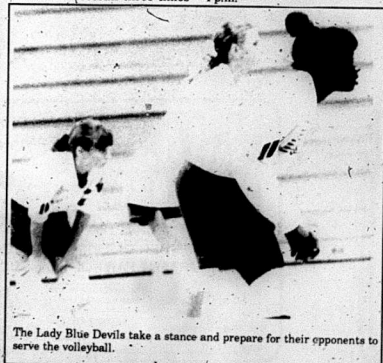

By Robbie Everett

Freshman Robbie Banks (8 points), and juniors Maryuri Rojas (9 points) and Jacarda Banks teamed up last Thursday evening to lead the Lady Devils to a 2-1 victory over the Lady Trojans of Lake Worth High School.

J. Banks led the Devils 15 to 11 with an ace and 4 points in the first game. She also had three blocks and six spikes. Sophomore Robin Collier had more than six sets to aide Banks' spikes.

A serving slump during the second game sent the teams into a third and deciding game. The Lady Devils took game three, 15 to 8. Maryuri Rojas (7 points) and Jennifer Smith (4 points) teamed for 11 points to seal the victory.

"The team is young but has come a long way since practice started," said Pahokee Coach Maria Warren. "We're very proud of them," she added.

The Lady Blue Devils take a stance and prepare for their opponents to serve the volleyball.
